

Product description

Teleprints makes it easy to conveniently order real photo prints from your camera phone wherever you are! Choose to develop your camera phone photos at the local Walgreens drugstore of your choice for same day pickup or have them delivered directly to your door! Speed-order all your camera phone photos as 3x5, 4x6 or 5x7 prints. Use the Teleprints address book to send copies of an order to groups of friends and family in multiple locations. Pay for the entire mail order delivery on your phone with Teleprints credits or use one Teleprints credit to transmit your order to Walgreens and pay for it upon pickup.

Using the application

Main Menu

After the Splash screen the Teleprints **Main Menu** (Figure 1) will display. The menu options include **New Order**, **Address Book**, **Settings** and **Help**. Press the round 4-way navigation key up or down to highlight the option of your choice and press the center of the Navigation key to Select the option.

Placing a Teleprints order for pick up at Walgreens

There are 7 easy steps to conveniently place a Teleprints order from your camera phone and pick up your photo prints at the local Walgreens drugstore location of your choice.

1. **Main Menu** (Figure 1) – From the Main Menu Highlight and Select the New Order option.
2. **New Order** (Figure 2) – When placing a new order you must first choose the order destination. Press the round 4-way navigation key up or down to highlight the option of your choice and press the center of the Navigation key

to Select the 'Walgreens – In Store" option .

3. **Speed Order** (Figure 3) – Choose the print size, print quantity and number of prints per image for every photo in your camera phone gallery. Press the round 4-way navigation key up or down to highlight the option you want to change and press the center of the Navigation key. A pop up with the choices for that specific option will display. Highlight and select the choice you prefer. Press the LSK 'Back' to return to the Speed Order page with the new setting listed. Once you have completed the Speed Order process you will be taken to the Phone Gallery page to review your order.
 - a. **Select Print Size** – All your photos for a single order will developed in the size you select. 4x6 is the default print size. To change the default select this option and a pop up with 4x6 or 5x7 print size options will display. Highlight and select the print size option of your choice and you will be returned to the main Speed Order page.
 - b. **Select Order Size** –The Order Size is a convenience tool that allows you to select and print a specific number of photos in your camera phone gallery. When your order destination is Walgreens, Print all is the default setting. To change the default, select this option and a pop up with "Print all, Newest 10, 20, or 40 prints" will display. Select the number of photos that you would like to print and they will be selected from your camera phone gallery in order of the most recent. Your transaction charge to send the Teleprints order to Walgreens is one credit regardless of the number of prints you order. You pay for your photo prints at Walgreens when you pick them up.
 - c. **Select Prints per Photo** – Use this option to order single, double, triple or quadruple prints of the photos in your camera phone gallery. For 'Walgreens Pick Up' one print per image is the default option. To change the default select this option and a pop up with 1, 2, 3 prints per image will display. Highlight and select the print per image option of your choice and you will be returned to the main Speed Order page.
4. **Order Review** (Figure 4) – The Phone Gallery displays thumbnails of the photos you have selected for your order with the print quantity listed next to them. Press the round 4-way navigation key up or down to highlight the box next to the thumbnail that contains the print quantity and adjust the quantity by pressing the appropriate number on the key pad. Clearing the number from the box will eliminate that photo from the print order. Once you have reviewed and adjusted the number of prints you would like to include in your order press the RSK Key/Next to view the Walgreens Pick up order summary.

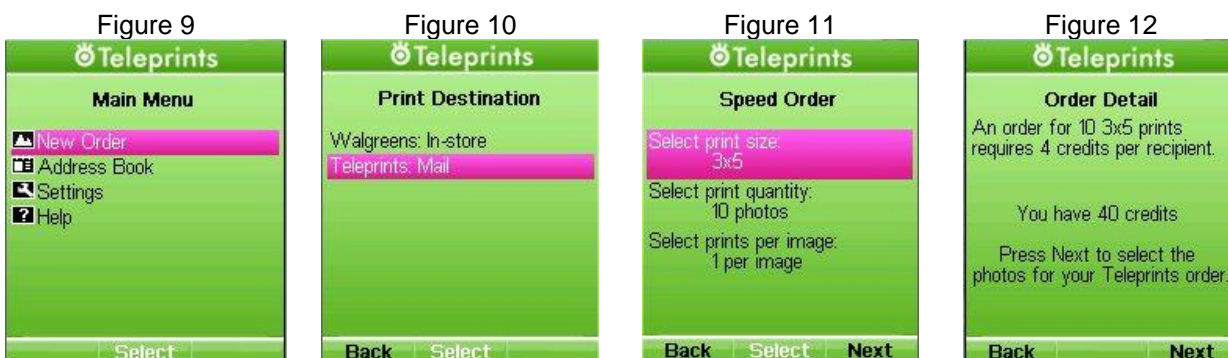

5. **Walgreens Pick Up Order Summary** (Figure 5) – This screen displays the details of your order including the print size, number of prints, and the amount due at pick up. Tax will vary from location to location and is not included in the estimated price. Once you have reviewed the order summary press the RSK/Next to view the Walgreens Store finder page.
6. **Walgreens Store Finder** (Figure 6) - Use the key pad to enter your zip code or use the navigation key to highlight the City field, then State field respectively to enter the appropriate information using your key pad. The two letter postal state abbreviation is acceptable. Once your information has been entered press the RSK/Next to continue to the search result page
7. **Walgreens Search Results**(Figure 7) – Highlight the pick up location of your choice using the navigation key and press the RSK/ Next to view the exact address of the nearest Walgreens drugstore to your location. Press the center of the RSK/Send to process your order. You will see a progress bar as your order is processed and will be notified that your order has been placed when the progress is completed. (Figure 8)

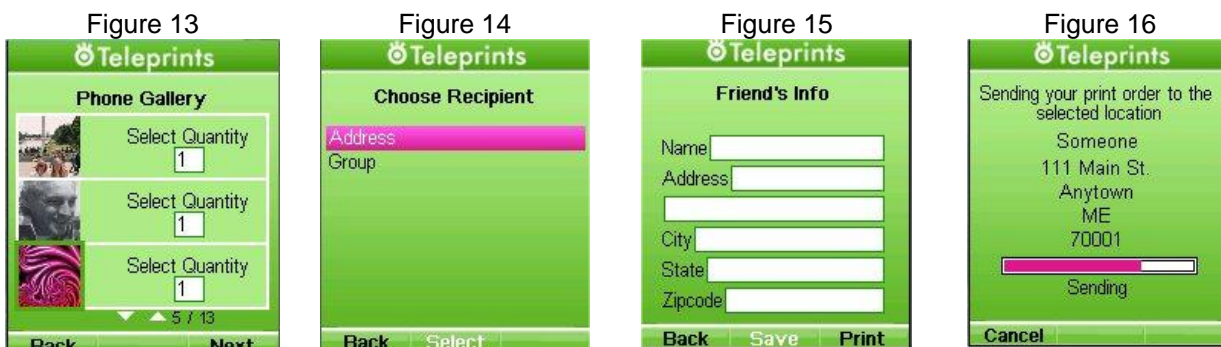

Placing a Teleprints Mail Order

There are 7 easy steps to conveniently place a Teleprints Mail Order from your camera phone and have them delivered

directly to your door or to a friends address.

1. **Main Menu** (Figure 9) – From the Main Menu Highlight and Select the New Order menu option.
2. **New Order** (Figure 10) – When placing a new order you must first choose the order destination. Press the round 4-way navigation key up or down to highlight the option of your choice and press the center of the Navigation key to Select the ‘Mail Order ’ option . Once your selection has been made the Speed Order screen will display.
3. **Speed Order** (Figure 11) – Choose the print size, print quantity and number of prints per image. Press the round 4-way navigation key up or down to highlight the option you want to change and press the center of the Navigation key. A pop up with the choices for that specific option will display. Highlight and select the choice you prefer and you will be returned to the Speed Order page with the new setting listed. Once you have completed the Speed Order process press the RSK/Next .
 - a. **Select Print Size** – All your photos for a single order will developed in the size you select. 3x5 is the default print size. To change the default select this option and a pop up with 3x5, 4x6 and 5x7 print size options will display. Highlight and select the print size option of your choice and press the LSK/Back to return to the main Speed Order page.
 - b. **Select Print Quantity** – Pre-select the order size of the number of photos you wish to print from your camera phone gallery. There are 3 print quantities available for a Teleprints Mail Order. Up to 10 prints is the default setting. To change the default select this option and a pop up will display with the following choices “Up to 10, 20, or 30 prints”. You may order any number of prints up to the print quantity in the order size selected. You will be charged for the full price of the order size you selected regardless of the number of prints in the order. If you want to order more prints than the original order size chosen you will need to select a larger order size or place an additional order.
 - c. **Select Prints per Photo** – Use this option to order single, double, or triple prints of the photos in your camera phone gallery. For Mail Order single prints are the default option. To change the default select this option and a pop up with 1, 2, or 3 prints per photo will display. Highlight and select the print per photo option of your choice and press the LSK /Back to return to the main Speed Order page.
4. **Order Detail** (Figure 12) – The size of the order, print size, and the number of credits to place the order displays along with the with the number of credits available. If the credits available are fewer than the number required, you will be asked to leave the application to purchase more Teleprints credits from where you purchased the original application. If you have sufficient credits, press the RSK/Next.

5. **Order Review** (Figure 13) – The Phone Gallery displays thumbnails of the photos you have selected for your order with the print quantity listed next to them. If your order quantity is less than the number of images in your phone gallery the most recent will display with the number of prints per photo. Additional images will have the quantity zero. To change the photos in your order, press the round 4-way navigation key up or down to highlight the box next to the thumbnail that contains the print quantity and adjust the quantity by pressing the appropriate number on the key pad. Clearing the number from the box will eliminate that photo from the print order. Once you have reviewed and adjusted the number of prints you would like to include in your order press the RSK Key/Next to view the Walgreens Pick up order summary.

6. **Choose Recipient** (Figure 14) - Use the navigation key to highlight the 'Address' or the 'Group' list press the center of the navigation key 'Select' to view the selected option.
 - a. Address – The Address book page will display with 'Individual Friends' at the top of the screen. Press up or down on the round navigation key to highlight the contact as the recipient of your Teleprints Mail Order. If no contacts have been entered highlight and select the New Contact option and the Address book page with 'Friend's Info' will display (Figure15).
 - i. Contact Information Entry part 1– The first contact information entry page will offer fields to enter the contacts First Name, Last Name, and Street Address. Use the round navigation key to highlight the field and use the key pad to enter the appropriate information. Once these fields are completed press the center of the navigation key 'Next' to display part 2.
 - ii. Contact Information Entry part 2 – This page offers fields to enter the City, State, and Zip Code in the same manner as the first page of this sequence. Once these fields are completed press the center of the navigation key 'Save' and you will be returned to the Select a contact page with your new contact added.
 - b. Group List – **You need to purchase the number of credits to process multiple orders in advance of placing a group order.** When this option is selected the Group List page will display with the request to 'please select a group' at the top of the screen. Every member of the selected group will receive an identical copy of your Teleprints order. Press up or down on the round navigation key to highlight the group to receive your Teleprints Mail Order. If no groups have been created highlight and select the New Group option and the group list page with 'Please enter Group Name' will display.
 - i. Enter Group Name – Enter the group name in the field provided. Once this field is completed press the center of the navigation key 'Edit' to display the select group members page.
 - ii. Select Group Members – This page lists all the people in your address book. Use the round navigation key to highlight the name and press the center of the navigation key 'Select' to include that person in the group. Included group members will display with a check mark next to their name. To remove a member from a group press the center navigation key again. The check mark will be removed and that contact will no longer be a member of the group. Once all group member have been selected press the *Right Soft Key* 'Continue' to return to the 'Please Select Group' page with the new group added or edited.

Once the Group of your choice has been selected from the Select Group page press the *Right Soft Key* 'Order' to proceed with the order process. You will be presented with the Order Review page.

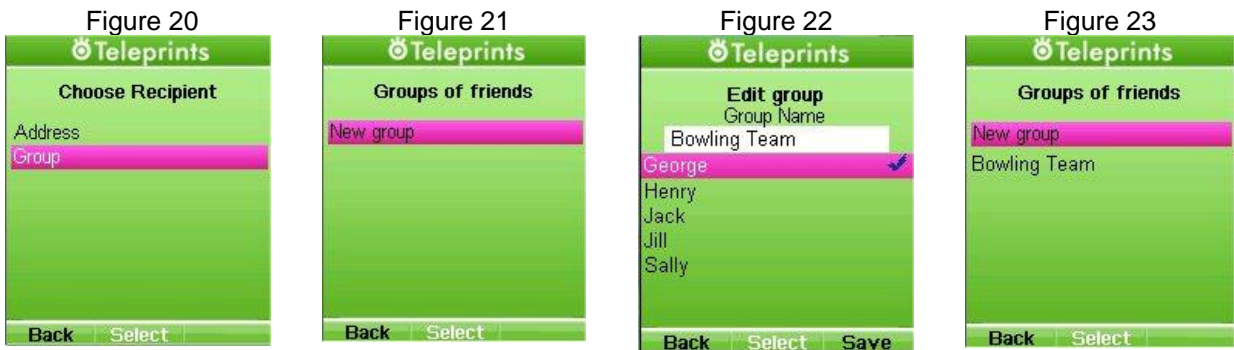

7. **Send Order** (Figure16) - This page displays the location to which your order will be sent. Press the LSK/Cancel to cancel the order sequence if the address is incorrect. You will be presented with a progress bar and a confirmation screen when your order is finished sending.

Address Book – Selecting this option from the main menu will display 'Choose Recipient' at the top of the screen (Figure 17). Press up or down on the round navigation key to highlight Address or Group.

1. If address is selected, the Individual Friends Screen will display (Figure 18). If you wish to enter a new contact

highlight and select the New friend option to view the 'Friend's Info' (Figure 19) page to enter the friend's Name, Address, City, State and Zip code. Use the round navigation key to highlight the field and use the key pad to enter the appropriate information. Once these fields are completed press the center of the navigation key 'Save' and you will be returned to the Select a contact page with your new contact added.

2. If Group is selected (Figure 20), the Groups of Friends screen displays (Figure 21). Highlight and select the New group option. Enter the name of the group on the Edit group page (Figure 22). Once the name has been keyed in, use the navigation key to highlight and select the friend's names you wish to include in the group. Selected members will have a check next to their name. Repeat until all the members of the group are checked and press the RSK/save to save the group with all its members. The group name will appear in the Groups of friends screen below the New group option(Figure 23).

Settings (Figure 24) – Select this option to change either the account settings, Distance Units, Contact Information, or language preference. Use the navigation key to highlight and select the option you wish to edit. Account settings (Figure 25) displays your Teleprints username and password. Distance units (Figure 26) gives you the option to select Kilometers or Miles. Contact information (Figure 27) allows you to edit your name and phone information . Language allows you to choose the language in which you wish the application to display all of its messages, commands and menu options. English is the default. You may use the navigation key to highlight and select the language of your choice of English or Español. Once your language choice has been made you must restart the Teleprints application for it to take effect.

Promotions – From time to time valuable promotions will be made available to Pictavision subscribers and a Promotion item will display on the Main Menu. Highlight and select the menu item 'Promotions' to view the available promotion.

Help – Select Help to view a short description of the basic features and how to navigate through Pictavision. You can scroll to read the text and press OK 'Next' to read the next page where you can find the version number.
